

# UNIVELA

CAMPIONE DEL GARDA

The Univela sport centre is open since 2012 with the specific intent to host trainings and regattas.

Campione del Garda is a unique place on the north-west side of the Lake Garda with specific wind conditions, perfect for sailing professionals and beginners.

We have 3 classrooms 30m<sup>2</sup> each that can be unite in a single big room.

During events we set up the rooms for:

- Registration and front office
- Race office
- Jury office
- Media center

All office areas have furniture, electricity, high speed internet (wifi). All are protected from wind, sand, dust, rain and have access to printers and copy machines.

## Measurements Area

We have an hangar 12 meters high where we can store several boats with the mast rigged.

The set up is working perfectly as measurements room with all the necessary tools.

Competitors will find shaded area with protection from the elements.

Official flagpole is near the race office and near the stage with interview backdrop.

Mooring facilities for 25 coach boats, all race committee boats and rescue boats, media boats (press, photography and television).

# COMMON SPACES

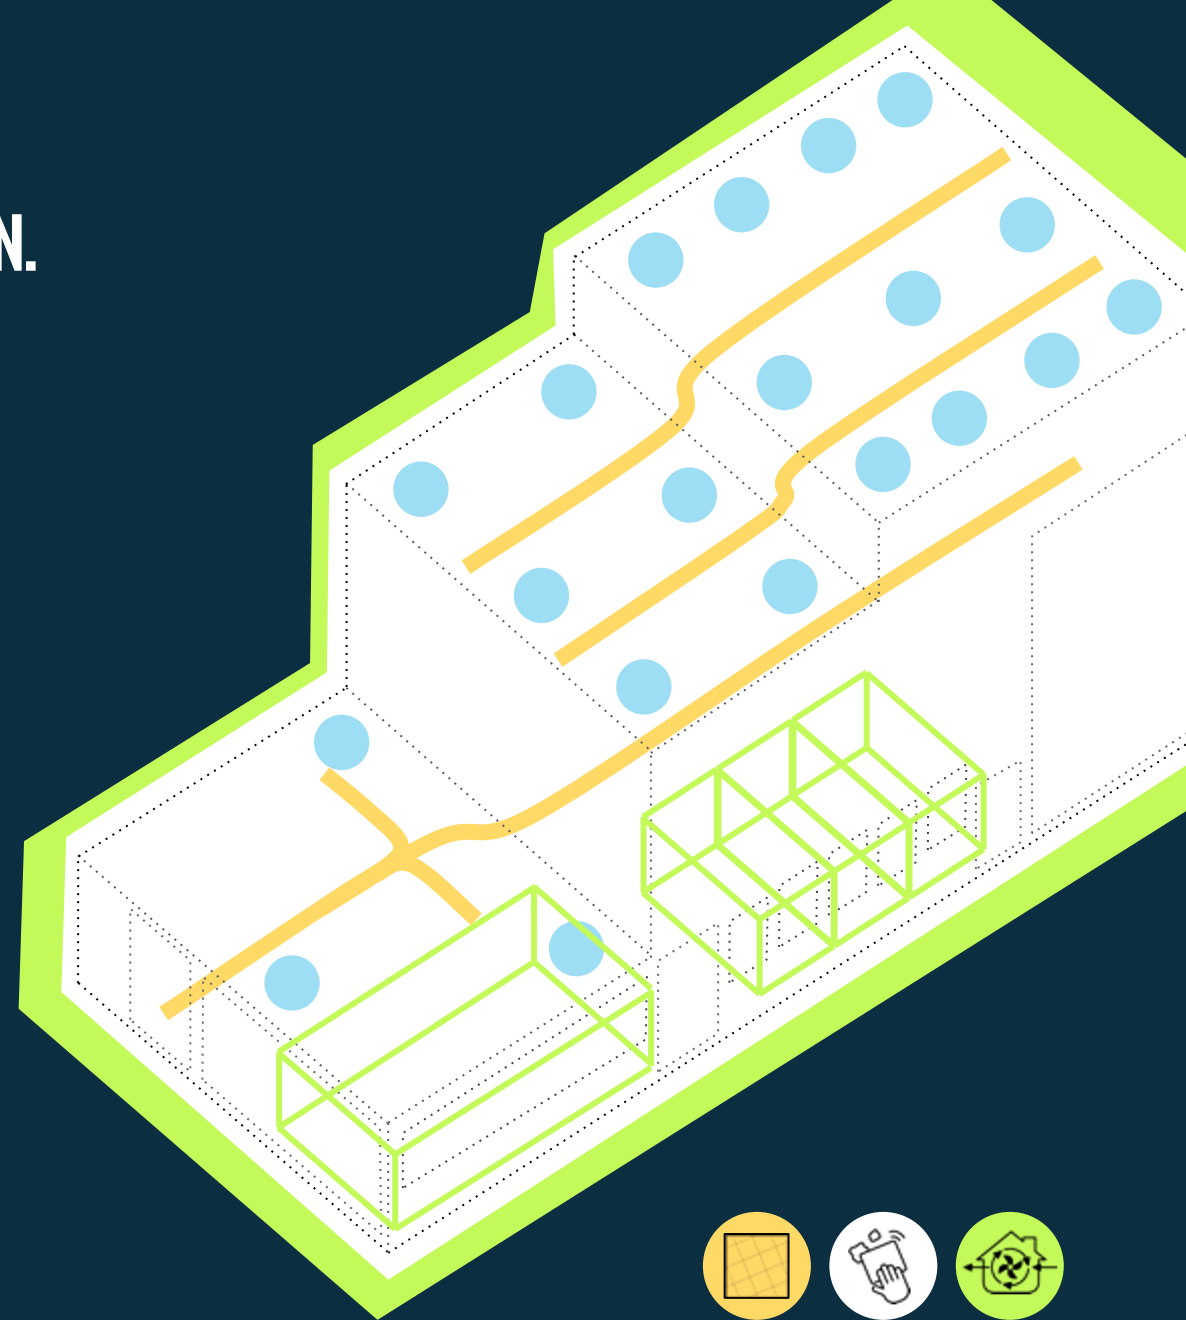

## DISTANCE, HYGIENE, SANITATION AND DISINFECTION.

We have reorganized the spaces and paths in compliance with the safety distances of each individual guest.

We clean the surfaces with disposable microfibre cloths, pre-impregnated with chlorine alcohol base capable of removing 99.99% of the bacteria in the main points of contact such as switches, push-button panels, handles, telephones, POS, tablets, chairs and doors.

We disinfect the floors several times a day, with microfibre mop pre-impregnated with hypochlorite disinfectant at a concentration of 0.1% of active chlorine.

Every day we treat all the rooms for common use with professional ozone generators ideal for sanitizing the environments in a natural way from bacteria, virus, fungi, parasites.

# GENERAL PREVENTION WELCOME ON BOARD

We installed at the entrance a thermal imaging camera with mask detection and body temperature 34-45 ° C.

Everyone will be asked to use the mask in the interior spaces. If a guest does not have his own, we will provide it to him from the reception.

“Safe Check-In” protected by a plexiglas panel. Check-in and check-out procedures with document scanning via tablet and digital signature.
